

# Rider DECAY/REBIRTH

## Requirements podium

<b>A</b>	Drumkit	
<b>B</b>	Bass amp	
<b>C</b>	Guitar amp	
<b>D</b>	Microphone stand	
<b>E</b>	Monitor (frontman)	<i>samples, bass, guitar</i>
<b>F</b>	Monitor (drummer)	<i>vocals, bass, guitar, kick</i>

Socket x6 (singer)
Socket x1 (drummer)

<b>G</b>	Mono DI (vocals)
<b>H</b>	Stereo DI (drumpad)

## To mixer

<b>Out 1</b>	Bass amp
<b>Out 2</b>	Guitar amp
<b>Out 3</b>	Vocal mono DI
<b>Out 4+5</b>	Drumpad stereo DI <i>(same volume as other inputs)</i>

## Light plan

<b>Colors</b>	Purple, red
	White (spotlight) for solos
<b>Effects</b>	Stroboscope suitable for heavier musical elements

## Comments

- **Samples from drumpad at the same volume as the other instruments!**
- The singer uses an overdrive pedal for vocals, this can cause feedback so this will have to be soundchecked briefly.
- The singer brings his own microphone. Vocals go via DI.
- Drummer brings his own cymbals. Snare and/or drumkit if agreed upon beforehand.
- Guitar amp can be brought by the band if agreed upon beforehand.
