

## **Biografie DECAY/REBIRTH**

Danny Tol and Wouter Swijgman met in Amsterdam in 2013 and have not stopped making music together since. In 2023, they decided to found DECAY/REBIRTH together, a daring two-person project. Despite the small lineup, they unleash a wall of sound live, thanks in part to a range of self-produced samples and backing tracks. They blend alternative rock with electronic influences, creating energetic yet mysterious music, similarly described by others as 'avant-garde'. Danny sings and plays bass, guitar, and synthesizer; Wouter plays drums and triggers various sounds on a drum pad. Furthermore, they handle all the mixing and mastering of their recorded music themselves.
